

REMARKS/ARGUMENTS

Claims 1-3 are pending in this application.

The Examiner has required the election of a single disclosed species under 35 U.S.C. 121.

In a telephone conversation between the Examiner, Paul Ward, and applicants' attorney, Benjamin Lambert, on March 8, 2006, the Examiner indicated that in requesting the election of a single disclosed species only the election of a single disclosed compound was required in response to the office action and that no election of a particular invention need be made at this time.

The Examiner indicated that the request for the selection of a single disclosed species was made in order to give him a basis on which to begin his search. Applicants, therefore, have not elected a particular invention or specific claims for examination.

Applicants hereby elect the compound of Example 3, i.e. (2-chloro-6H-thieno[2,3-b]pyrrol-5-yl)-(4-methyl-piperazin-1-yl)-methanone as the single disclosed species.

Respectfully submitted,

/John W. Harbour/
